Profile Summary

Motivated third-year B.Sc. Computer Science student at Ramakrishna Mission Residential College (Autonomous) with a strong academic background and interest in software development, AI and problem solving. Experienced in C, C++, and basic web technologies, with a growing interest in Data Structures, Algorithms, Data Science, Artificial Intelligence, and Machine Learning. Passionate about learning new technologies and building efficient and practical software solutions.

Education

Ramakrishna Mission Residential College (Autonomous)

Affiliated to Calcutta University

- First Semester SGPA: 8.63
- Second Semester SGPA: 8.90
- Third Semester SGPA: 9.14
- Fourth Semester SGPA: 8.86

Madarat Popular Academy

Higher Secondary Board: WBCHSE

Percentage: 89%

Kautala Ramkrishna Ashram High School (HS)

Secondary Board: WBBSE

Percentage: 92.43%

Skills

- Programming: C, C++, Python (Basics), Java, Shell Programming
- Web: HTML, CSS, JavaScript (Basic)
- Database: SQL
- Tools/Technologies: $\text{\LaTeX}$
- Concepts: Data Structures & Algorithms

Projects

Frontend Web Projects

- Developed a **Personal Portfolio Website** to showcase skills, projects, and contact information using **HTML, CSS, and JavaScript**.
- Built a responsive **Calculator** capable of performing basic arithmetic operations with an intuitive user interface.
- Created multiple **Clone Websites** inspired by popular platforms to practice responsive layouts, navigation, and UI design.
- Designed and developed several mini websites featuring interactive components, modern layouts, and responsive design principles.

Browser Games

- Built small browser-based games such as **Tic Tac Toe, Rock Paper Scissors, and Hand Cricket**.
- Implemented game logic and user interaction using **JavaScript**.

- Designed the interface using **HTML and CSS**.

Algorithmic Problem Solving

- Regularly solving coding problems on **HackerRank and LeetCode**.
- Practicing concepts such as arrays, strings, recursion, and basic data structures.
- Focused on improving logical thinking and algorithm design skills.

Work Experience

AI/ML with Cybersecurity Intern *HandE Learning & The Leader*
Hybrid Internship *2026*

- Successfully completed a hybrid-mode internship in Artificial Intelligence, Machine Learning, and Cybersecurity.
- Gained hands-on experience with machine learning concepts, model evaluation, data analysis, and cybersecurity fundamentals.
- Worked on practical assignments integrating AI/ML techniques with cybersecurity applications.

Web Development Intern *15 May 2026 – 14 June 2026*
Pinnacle Labs *Online Internship (4 Weeks)*

- Successfully completed a four-week online internship in Web Development.
- Developed responsive web applications using HTML, CSS, and JavaScript.
- Strengthened frontend development, debugging, and responsive design skills through practical projects.

Web Development Intern *Techsolid Development*
Online Internship (1 Month) *2025*

- Completed a one-month online internship focused on web development.
- Built responsive frontend components using HTML, CSS, and JavaScript.
- Strengthened practical skills in modern web design and frontend development.

Activities

- Participated in an online hackathon focused on technology and problem solving.

Languages

Bengali(Fluent) , English , Hindi

Hobbies

Photography, Travelling
